

Have peace of mind and get alerted to changes at home

DCH-S220 mydlink® Wi-Fi Siren

Features

- Use with mydlink-enabled smart devices to sound the siren based on leak, motion, sound or other actions
- Easy setup with connection to your existing Wi-Fi network
- Controlled by the free mydlink® Home mobile app
- 6 alarm sounds to create unique audible alerts based on different triggers
- Up to 100 decibels with adjustable volume control using the mobile app
- Wall plug design (AC powered)

Overview

The DCH-S220 mydlink® Wi-Fi Siren is a wireless siren that helps keep your home safe. Pair the siren with the mydlink Wi-Fi Motion or Water Sensor (DCH-S150/DCH-S160) so when either motion or water is detected, you can be notified. When the siren is triggered, it will generate a 100 dB (max) audio alarm and it will send push notifications to your smartphone so you know what is going on at home from anywhere.

Works well with other D-Link Connected Home Devices

The mydlink® Wi-Fi Siren can be used with other D-Link Connected Home devices such as a water sensor or a motion sensor, so you can customize your own home automation system to fit your needs. Install a DCH-S150 motion sensor and as motion is detected, the siren will go off to alert you of a potential danger.

Easy Setup

The DCH-S220 can be easily set up. Download the free mydlink® Home app and follow the step-by-step instructions to quickly configure the DCH-S220. Connecting to your Wi-Fi network is as easy as a push of a button: simply push the Wi-Fi Protected Setup (WPS) and you are ready to go.

DCH-S220 mydlink® Wi-Fi Siren

Technical Specifications	
Functionality	
Alarm Sounds	6 different built-in sounds: <ul style="list-style-type: none"> • Emergency • Fire • Ambulance • Police • Door Chime • Arm/Disarm
