DCS-3511/DCS-3530

Quick Install Guide

This installation guide provides basic instructions for installing the DCS-3511/DCS-3530 Network Camera on your network. For additional information about how to use the camera, please see the User's Manual which is available on the CD include in this package or from the D-Link support website.

Installation Steps

1. Verify the package contents against the list below.
2. Hardware Overview
3. Hardware Installation
4. Configuration with Wizard

1. Package Contents

- DCS-3511/DCS-3530 HD Network Camera
- Camera Stand
- Wireless antenna (DCS-3530 only)
- Manual and Software on CD-ROM
- CAT5 Ethernet Cable
- AV cable
- Power Adapter
- Quick Install Guide
- lens ring fixture
- Allen wrench

If any of the above items are missing, please contact your reseller.

2. Hardware Overview

Rear Panel

Front Panel

Side panel

Button panel

3. Hardware Installation

Basic Connection (without PoE)

Connect the camera to your switch or router via Ethernet cable.
Connect the supplied power cable from the camera to a power outlet.

Connection Using a PoE Switch

If using a PoE switch or router, connect the network camera via Ethernet cable.
PoE will transmit both power and data over a single cable.

Note: Once power has been established, the LED will turn red. When the device has obtained an IP address and is accessible, the LED will turn green.

Attach the Antennas (DCS-3530 only)

Locate the antennas included with your DCS-3530 and attach them to the antenna connectors located on the back of the DCS-3530

4. Configuration with Wizard

Insert the DCS-3511/DCS-3530 CD into your computer's CD-ROM drive to begin the installation. If the Autorun function on your computer is disabled, or if the D-Link Launcher fails to start automatically, click **Start > Run**. Type **D:\autorun.exe**, where D: represents the drive letter of your CD-ROM drive.

Click **Setup Wizard** to begin the installation.

After clicking Setup Wizard, the following window will open.

Click **Next** to continue.

Click **Yes** to accept the License Agreement.

To start the installation process, click **Next**.

Note: The installation may take several minutes to finish.

Click **Finish** to complete the installation.

Click on the **D-Link Setup Wizard SE** icon that was created in your Windows Start menu.

Start > D-Link > Setup Wizard SE

The Setup Wizard will appear and display the MAC address and IP address of your camera(s). If you have a DHCP server on your network, a valid IP Address will be displayed. If your network does not use a DHCP server, the network camera's default static IP **192.168.0.20** will be displayed.

Click the **Wizard** button to continue.

Enter the Admin ID and password. When logging in for the first time, the default Admin ID is **admin** with the password left blank.

Click **Next**, to proceed to the next page.

Select DHCP if your camera obtains an IP address automatically when it boots up. Select static IP if the camera will use the same IP address each time it is started.

Click **Next**, to proceed to the next page.

Take a moment to confirm your settings and click **Restart**.

Viewing Camera via Web Browser

Click on the **D-Link Setup Wizard SE** icon that was created in your Windows Start menu.

Start > D-Link > Setup Wizard SE

Select the camera and click the button labeled **"Link"** to access the web configuration.

The Setup Wizard will automatically open your web browser to the IP address of the camera.

Enter **admin** as the default username and leave the password blank. Click **OK** to continue.

This section shows your camera's live video. You can select your video profile and view or operate the camera. For additional information about web configuration, please refer to the user manual included on the CD-ROM or the D-Link website.

Technical Support

You can find software updates and user documentation on the D-Link website.
