

BL-5500N-JK SURGE PROTECTORS

- Specially designed for 5GHz WLAN and WiMax antenna feeder
- 1/4 Wavelength short , good lightning protection effect
- Simple and firm structure, Good appearance, Easy to mount

Specifications	
Model	BL-5500N-JK
Freq.Range-MHz	5000 to 6000
Nominal Impedance-Ω	50
Max.Power—W	500
Insertion Loss—dB	≤0.2
VSWR	≤1.25
Lightning Protection	1/4 Wavelength short
Connector Type	N Male / N Female
Size-mm	75×32×25
Weight—g	200
Temperature—℃	-40 to +85

Grounding Instructions:

1. Make the ground ring through the N female, then lock the ground ring with flat nut and waterproof them.
2. Make the N female through sheet metal or the equipment need mounting, then grounding and make waterproof measures.
