

Buffalo Tools Launcher

Buffalo Tools Launcher lets you easily launch software from the Buffalo utility suite. Just click an icon to launch the desired Buffalo tool or utility.

Features

- Launch tools and utilities easily by just clicking an icon.
- Starts automatically with your PC.
- Hides away at the side of your screen when not in use.
- You can easily add or delete software to or from the Buffalo Tools Launcher. Customize it to your preference. You cannot add or delete icons to or from the *Buffalo* tab.
- Movable to the top, right, or left of your screen.

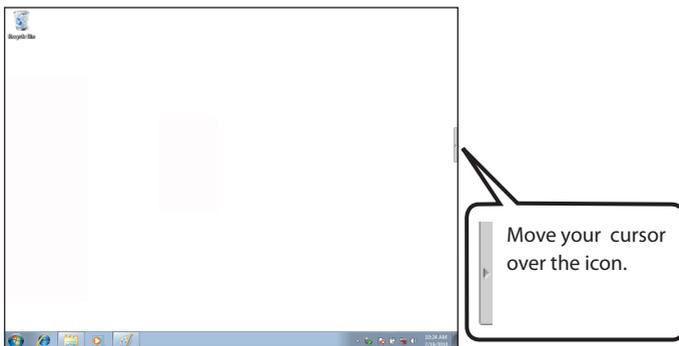

To Use

To use the Buffalo Tools Launcher, follow the instructions below.

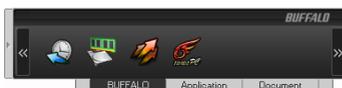

1 Boot your PC.

2 Move your cursor over the icon at the side of the screen [].

If the Launcher does not open, select [Start] > [(All) programs] > [BUFFALO] > [Buffalo Tools Launcher] > [Buffalo Tools Launcher].

Put the cursor over the icon to display Buffalo tools and utilities.

Go to Next Page 

3

Select a tab.

4 Click the icon you want to launch.

Click an icon.

The software will launch.

Notes: To move the Buffalo Tools Launcher to the side of the screen , move the cursor away from the Launcher.

For software that switches on and off, right-click the icon and select [on] or [off].

Select [on] or [off].

Add/Delete software's icon

Icons can be categorized, added, or deleted.

Note: You cannot add or delete icons to or from the *Buffalo* tab.

■ Add an icon

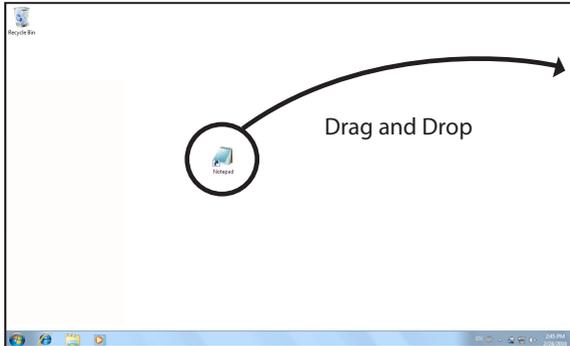

1

Select a tab.

Go to Next Page

2 Drag and drop the icon you want to add to [].

Move an icon over [], and the Buffalo Tools Launcher will open. Drop the icon on the Launcher.

This example shows Notepad being added to the Launcher. Drag and drop the icon into any empty space on the Launcher.

3 Icon you just dragged and dropped is added.

The icon is added.

You've added an icon to the Launcher.

■ Delete an icon

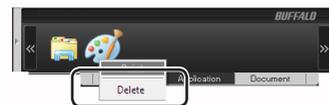

1

Select a tab.

2 Right-click the icon you want to delete.

3

Click [Delete].

You've deleted an icon.
